## Mentoring Workshop & Brainstorming Session

This interactive workshop will be co-led by an IEEE Young Professional and Life Fellow to provide the necessary tools in creating and establishing a successful mentoring relationship.

After the workshop, a mentoring simulation will provide insight into the dynamics of a typical mentor/mentee meeting. The audience will be encouraged to participate in an interactive brainstorming and Q&A session with Life members, industry leaders, young professionals, and students. This session will be led by an IEEE WIE member.

### Workshop & Brainstorm Session

#### Mentoring Journey: Tools and Resources to Support You
